

JAN J. MULDER

The Jazz Repertoire ***A Survey***

What started merely as a listing of the most frequently played numbers ran out into a lexicon with over thirteen thousand titles.

The book includes both songs from the Great American Songbook and specific jazz compositions insofar as they were covered by others, but also material from the world of entertainment, rock and classical music, nursery rhymes, and folklore from all quarters.

Of the titles the basic data are given – composer, lyricist, year of origin – but also, if relevant, the source, alternative titles, contrafacts and more, with the customary references. Each title is accompanied by a selection of recorded performances.

THE JAZZ REPERTOIRE is a xii + 598 pages soft cover book, size 14.5×21 cm.
ISBN/EAN 978-90-77260-24-1. Price € 45.00, exclusive of tax, postage and handling.

A Bio-Discography of the Jazz Trumpeter

Frankie Newton

by John Postgate and Bob Weir

This is the second edition of the collaboration between Bob Weir and the late John Postgate, originally self-published in 2003. The biography was developed by John Postgate from his two articles in the July and August 2002 issues of *Jazz Journal International* and is unaltered from the first edition.

The discography is a comprehensive correction and updating of the first edition. It documents every Frankie Newton recording discovered to date, in all formats, including studio sessions, radio broadcasts, tapes of club and concert appearances and private recordings.

Frankie Newton plays on every title in the discography.

The discography is thoroughly indexed with alphabetical lists of Records, Musicians and Song Titles. Three photos of Frankie are included.
